SUMMARY

Master of Applied Finance candidate at SMU who spent two years inside a growing SME: reconciling the numbers, liaising with vendors and hitting statutory deadlines every single month. Combines that operator's grounding with analytical training (platform business cases, payments-network research, a private-bank client-service case) and a client-first communication style sharpened through committee presentations. Organized, deadline-proof and quick with Excel and PowerPoint; suited to operations, client-success, marketing-analytics and business-management roles in Singapore.

EDUCATION

Singapore Management University — Singapore · 2025 – Jan 2027
M.Sc., Applied Finance

Christ University, Bengaluru — India · 2020 – 2024
B.Com., Finance & Accountancy

EXPERIENCE

Jeevan Amrit Food Products Pvt. Ltd. — Financial Analyst (Part-Time) — Bhubaneswar, India · Jun 2022 – Jun 2024

- Acted as the point of contact with vendors and counterparties on invoice, payment and filing queries, resolving mismatches quickly and keeping relationships professional under deadline pressure.
- Owned the monthly statutory filing cadence (GST, TDS) end-to-end and prepared quarterly financial statements; two years without a missed deadline while multitasking across close, reviews and follow-ups.
- Ran variance and working-capital reviews in Excel, turning messy operational data into clear reports the owners could act on.

SELECTED PROJECTS — PLATFORMS, CLIENTS & RESEARCH

Bank of Singapore — Client-Service & Operations Strategy Case ↗ — Investment Advisory & Wealth Management · SMU · group

- Analyzed how BOS serves external asset managers, mapping onboarding friction, service-model trade-offs (centralized vs decentralized) and client pain points, and recommended a repositioning built on the strengths clients actually value.

Mastercard Inc. (NYSE: MA) — Payments-Network Research ↗ — Payments Sector · SMU · co-authored

- Co-authored an equity initiation (STRONG BUY, US$626 12-month target) on the world's second-largest payment network, studying how transaction volumes, merchant adoption and value-added services drive platform economics.

Arrived — Fractional Real-Estate Investment Platform — Financial Analytics & Innovation · SMU · group

- Analyzed a high-growth marketplace platform: its onboarding funnel, unit economics, fee structure and user-experience trade-offs, as an investment and product case.

Okapi Solar — Subscription-Platform Valuation ↗ — Specialty Finance · SMU · group

- Valued a Malaysian rooftop-solar platform that onboards households onto a monthly subscription; modeled sign-up economics, payment collections and credit-loss assumptions over a 5-year horizon, with the proceed gated on diligence.

Vietnam Gas-Fired Power Plant — Investment Memorandum ↗ — Project & Infrastructure Financing · SMU · group

- Authored a memorandum and presented it to a mock investment committee, winning conditional approval: building the case, fielding challenges live and defending the recommendation.

Impaakt — Sustainable Finance & Impact Measurement Case — Sustainable Finance & Impact Investing · SMU · awarded an A

- Researched and scored a company's real-world impact from public sources into a concise, evidence-backed report; the same research-and-synthesis work as market and customer reporting.

SKILLS

Operations & Coordination: Vendor and counterparty liaison, onboarding and query resolution, deadline and calendar management, multitasking across parallel workstreams, meticulous documentation

Communication: Explaining numbers and processes in plain language, committee presentations, professional written correspondence with external partners

Analysis & Reporting: Excel (advanced): usage reports, variance reviews, reconciliations, pivot tables and lookups; industry, platform and customer research; PowerPoint reporting packs

Mindset: Operator's ownership from SME experience, detail-oriented, fast learner, energized by startups, payments and platform businesses

Other work: The Walt Disney Co. — 24-page equity initiation (co-authored) · Fujitec — PE case competition memo (APECS 2026) · Home Depot — DCF and comparables valuation.

Certifications: Bloomberg Market Concepts, Spreadsheet Analysis & ESG (Oct 2026) · CFA Level I candidate (Feb 2027) · Advanced Excel — Christ University.

Languages: English & Hindi (fluent) · French (conversational). **Activities:** Finance Club Case Competition, Christ University — 3rd place (2022).

Availability: Immediate, internship or full-time, Singapore; M.Sc. completes January 2027.
